

Part-C

Practical Work

List of Practicals

1. Create a Writer document to represent the role of IT in Healthcare services.
2. Type the following using your left hand:
Start were extra red seat scatter abstract feast tax vegetate desert car safe cease wave egg verb brag acre scarf
eager fade grab read treat brace exact bed deserve dwarf sweet regarded brew career
3. Type the following words using your right hand:
Jump-up, toy, bull, mop, noun, puppy, milky, you, kill, poll
4. Take any article from the newspaper and type it on a notepad/ Writer. Keep a record of the total number of words typed, the amount of time spent on typing, and the number of words containing errors. Calculate net speed, gross speed, accuracy percentage, and error percentage based on your data.
5. Create a document in Writer and type the following quote:
“Education is the passport to the future, for tomorrow belongs to those who prepare for it today”.—Malcolm X
After typing the quote, perform the following actions:
 - Make the text bold.
 - Make 5 copies of this text.
 - Save the document with the name **Quotes.odt**.
6. Create a new document and type a paragraph about your favourite teacher.
 - Find and replace the word **He/She** with the name of the teacher.
 - Check the spelling and grammar of the paragraph.
7. Create the following document in Writer:

Shape name	Formula to calculate area
Rectangle	$A = \text{length} \times \text{width}$
Square	$A = \text{Side}^2$
Circle	$A = \pi r^2$
Triangle	$A = 1/2 \times b \times h$
8. Create a document and write any poem from your English book. After typing the poem, perform the following actions:
 - Change the case of the first letter of each line to lowercase if they are in uppercase or vice versa.
 - Apply any shade of the green colour as the font colour.
 - Apply the background colour.
9. Create a document and type “Honesty is the best policy”. Apply the following formatting:
 - Font: MS Sans Serif
 - Font style: Underline
 - Font size: 15 points

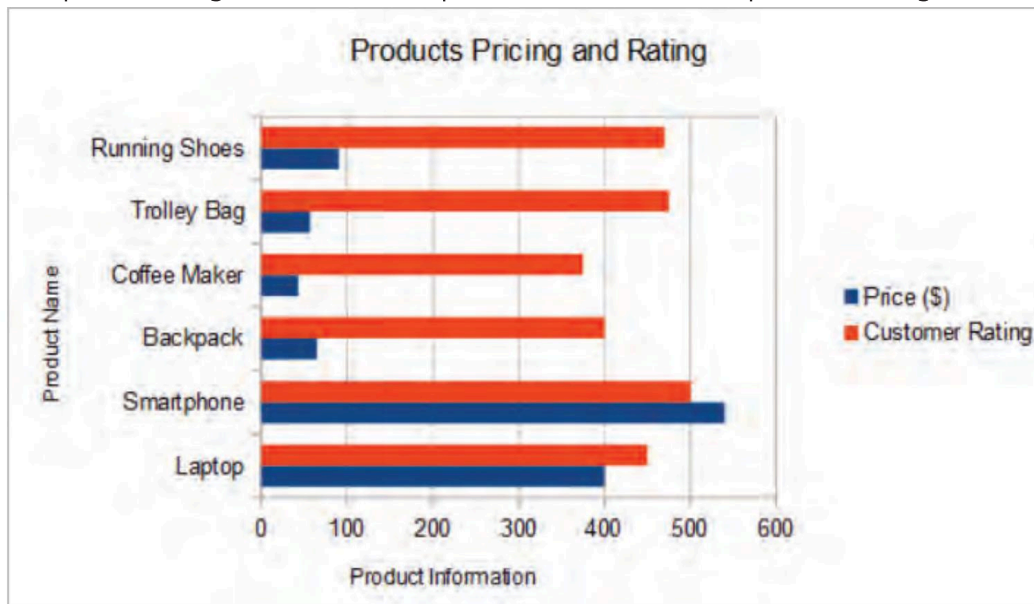

10. Create the following document in Writer and fill in the details. Take a printout and paste it in your computer notebook.

11. Create your study time table in a document and send it to your 10 classmates using mail merge. The time table must include the two breaks for 15 minutes.

	A	B	C	D	E	F
1	Expense and Reimbursements					
2						
3	Date	Category	Expense	Payment Method	Reimbursement	Final Expense
4	01/10/23	Groceries	Rs.1,000	Credit Card	Rs.200	
5		Travel	Rs.500	Cash	Rs.300	
6		Entertainment	Rs.1,250	Debit Card	Rs.400	
7		Electricity	Rs.2,550	UPI	Rs.325	
8		Dining Out	Rs.3,125	Debit Card	Rs.500	
9		Utilities	Rs.890	UPI	Rs.300	
10		Groceries	Rs.1,230	Credit Card	Rs.275	
11		Gifts	Rs.722	Cash	Rs.228	
12		Lunch	Rs.1,100	Cash	Rs.150	
13		Groceries	Rs.2,300	Credit Card	Rs.800	

- 368

13. Given is a chart plotted using data of the Calc spreadsheet. Answer the questions using the chart data.

- Name the chart type.
 - What is the chart title?
 - Name the legends used in the chart.
 - Name the product with the highest price.
 - Name the product with the highest customer rating.
14. Create the worksheet as shown and answer the following questions.
- Find the total marks for each of the students.
 - Find the percentage for each of the students.
 - Find the maximum marks in the English subject.
 - Find the minimum marks in the Maths subject.
 - What is the highest percentage of marks scored by a student?

	A	B	C	D	E	F	G	H
1	Result							
2	Student	English	Hindi	Maths	Science	Total Marks	Percentage	
3	Aadya	85	90	78	89			
4	Hunar	92	93	88	84			
5	Amiya	77	81	99	100			
6	Yashi	87	90	86	93			
7	Parth	86	94	92	94			
8	Rehaan	79	93	100	100			
9								

15. In Calc, write down the temperatures of any five Indian cities for any five consecutive days in Celsius.
- Convert the temperature for each city to Fahrenheit using an appropriate formula.
 - Find the maximum and minimum temperature recorded for each of the cities.
 - Find the average temperature recorded for each city during the five days.
 - Create a bar chart using the data in the spreadsheet. Add the chart elements: chart title, legends, X axis, and Y axis.
 - Save the file with an appropriate file name.

16. Type the data in the Calc worksheet and answer the questions that follow.

	A	B	C	D	E	F	G
1	Social Media User Information						
2	User ID	Username	Followers	Posts	Likes Per Post	Total no. of likes	Join Date
3	001	@User1	600	40	250		06/07/20
4			700	67	360		05/12/21
5			350	89	512		31/07/22
6			425	54	499		07/02/22
7			500	68	729		13/05/21
8							

- Use the Fill handle to display data for the User ID column in the sequence 001, 002, ... 005.
 - What tool or feature should you use to display the data in the sequence @User1, @User2, ... @User5 under the column Username?
 - Calculate the total number of likes for each post.
 - Which User ID is the latest to post on social media?
 - What is the leading number of zeroes in the data for cell A3.
17. In Calc software, create a time table for a week with columns for Day, Task, Start Time, End Time, and Duration.
- Centre align and bold the names of the columns.
 - Calculate the total time spent on each task for the entire week.
 - Calculate the least time required for a task to be completed during the week.
 - Vertically stack any one cell value.
 - Create a pie chart based on the data above to analyse the task and the duration required to complete the task.
18. Create a presentation on the topic: **Good Habits**.
- Open Impress.
 - Create an empty presentation.
 - Add title as **Good Habits**.
 - Add a subtitle as **Habits are routine behaviours that we perform regularly without conscious thought, like brushing teeth, checking email, exercising, etc.**
 - Save the presentation with the name **Good Habits.odp**.
 - Close the presentation and Impress window.
19. Create a presentation on the topic: **Indian Freedom Fighters**.
- Choose any two freedom fighters and make at least two slides about each of them. One is for the introduction, and the other is for the contribution to freedom.
 - Export the presentation as a PDF.
20. Create an empty presentation and type the following text on the slide:

Happy Republic Day

- Make a duplicate copy of the slide.
- Change the colour of the text on the duplicate slide and decrease the font size.
- Text should be centre aligned in both the slides.
- Save the presentation.

21. Create an empty presentation and perform the following actions:
- Add the title **National Bird of India** with **45** font size and **Arial** font.
 - Add the image of the national bird of India in the left portion of the slide.
 - Enter a one-line description about the national bird of India with **36** font size and **Times New Roman** font in the right portion of the slide.
 - Add one more slide and type **National Animal of India** as the title. Apply the same formatting that is applied in slide 1.
 - Similarly, add the image of the national animal of India and its description.
 - Save the presentation with an appropriate name.
 - Run the slide show.
22. Create a presentation on your favourite festival.
- The first slide should be the welcome slide.
 - Write your name in the bottom right corner of the first slide.
 - On the second slide, type the name of the festival as the title and type two lines about the festival.
 - The third slide should contain images related to the festival.
 - On the fourth slide, type any five things that you do during the festival as a bulleted list.
 - Save the presentation.
23. Create a presentation to demonstrate any 5 famous tourist places in your state.
- The title of each slide is the name of the tourist place.
 - Add the image of each tourist place.
 - Type the address of the tourist place on each slide at the bottom centre in blue colour.
 - Apply the theme to all the slides.
24. Create a presentation on your school.
- Type the name of your school in the middle of the first slide.
 - Create the time table of your class on the second slide.
 - Type the names of some extracurricular activities in a numbered list format on the fourth slide.
 - Save the presentation.
25. Create a presentation on the Seven Wonders of the World.
- The title of each slide is the name of the wonder.
 - Add the image of each of the wonders to the respective slide.
 - Apply custom animation on each title and image.
 - Save the presentation.
26. Create a presentation on the topic: Geometrical Shapes.
- The title of each slide is the name of the shape.
 - Draw the respective shapes.
 - Write the formula to calculate the area of the shape.
 - Apply the transition effect to each slide.
 - Add a slide master to display your name on each slide.

Viva-Voce Questions

1. Define the role of the ISP in IT-BPM.

Ans. Internet Service Providers (ISPs) provide internet connectivity and services, forming the backbone of the IT-BPM industry by enabling online communication and data transfer.

2. What is LMS?

Ans. LMS stands for Learning Management System. It is a digital platform that streamlines the administration, delivery, and management of educational and training content.

3. What do you mean by virtual keyboard?

Ans. A virtual keyboard assists you in learning to type with all ten fingers. In the keyboard settings, you can customise its options.

4. How can you calculate the percentage of character accuracy?

Ans. $\text{Accuracy\%} = (100\% - (\text{Characters with errors} * 100\%) / \text{Total number of characters})$

5. Name any two modifier keys.

Ans. Alt and Shift keys

6. What do you mean by documentation?

Ans. Documentation is the process of making documents.

7. What is the OLE feature of a word processor?

Ans. OLE stands for Object Linking and Embedding. This feature allows a word processor to interact with other programs by embedding objects in the documents.

8. What is the use of the F7 key in Writer?

Ans. The F7 key is used to initiate a spell check for the entire document.

9. What shortcut key is used to format the text as a superscript?

Ans. The Ctrl+Shift+P key is used to format the text as a superscript.

10. Where are the header and footer located in the document?

Ans. The header and the footer are the areas at the top and bottom of a page in a document.

11. What do you mean by splitting a table?

Ans. Splitting a table means dividing it into two parts.

12. Which commands are used to move a table in a document?

Ans. The Cut and Paste commands are used to move a table in a document.

13. What are the two types of orientation while printing a document?

Ans. There are two types of orientation: portrait and landscape.

14. What is the need for a print preview?

Ans. Before printing, double-checking the document's content, layout, and formatting via print preview guarantees a successful result.

15. What is the main document in the context of the mail merge?

Ans. A main document is a document that contains the basic text that will be the same in all the documents.

16. Name any two commonly used commands in the Edit menu of Calc.

Ans. Cut and Copy

17. Name the function used in Calc to display the current day.

Ans. =Day(Today())

18. Name the three types of vertical alignments in the text.

Ans. Top, Middle, and Bottom

19. What are gridlines?

Ans. Gridlines can either be horizontal or vertical lines, depending on the selected chart type. They extend across the plot area of the chart. Gridlines make it easier to read and understand the values.

20. If the data in cells A1 = What, B1 = a, C1 = Beautiful, and D1 = Day. Then what will cell E1 display if the formula = A1&B1&C1&D1 is typed in cell E1 and the Enter key is pressed?

Ans. WhataBeautifulDay

21. What is a function wizard?

Ans. A function wizard helps to search for the desired function from the list of available functions.

22. Name the types of cell references used in OpenOffice Calc.

Ans. Relative, Absolute, and Mixed

23. Name any two presentation software.

Ans. Microsoft PowerPoint and OpenOffice Impress

24. Which toolbar in Impress is used to change the font style, size, and other formatting options for text?

Ans. Text Formatting Toolbar

25. What is the purpose of the Basic Shapes button on the Drawing toolbar?

Ans. The Basic Shapes button allows you to insert some basic shapes like rectangles, ellipses, curves, circles, etc. on a slide.

26. How many slide layouts are there in Impress?

Ans. There are 12 slide layouts in Impress.

27. What is the use of the Slide Sorter view in Impress?

Ans. The Slide Sorter view allows you to easily rearrange the order of slides and get an overview of the entire presentation.

28. What is the shortcut key to centre-align the text on a slide?

Ans. Ctrl+E

29. Which key is used to move to the next cell in a table?

Ans. The Tab key is used to move to the next cell in a table.

30. Where can you access the Picture Toolbar?

Ans. The Picture toolbar can be accessed by clicking on View > Toolbars > Picture from the menu bar.
